Ready to take your research to the next level? Try Flow, our super-intuitive, cloud-based collaborative document and citation manager. Flow manages and displays your full text PDFs, autocompleting their metadata so you don’t have to. You can read and annotate the text right in your browser, then cite your references with Flow for Word. Collaboration is a cinch, too: Flow lets you share your work and co-create shared collections with classmates, colleagues, or students, then annotate them together. Importing your research from RefWorks takes a single click.
