In this Guide:

- Searching the catalogue
- Narrowing your results
- Accessing e-Books and e-Journals

Searching the Catalogue

1. Start at the library catalogue search page: [https://libcat.nshealth.ca/](https://libcat.nshealth.ca/)
2. In the search field, enter your search terms (e.g. book title, author(s), subject(s), keyword(s), etc.)
3. You may notice the predictive text/suggestive search terms appear in a list below the search field. If the item you are looking for appears in this list, simply click on the text and it will populate the search field for you
4. When you are ready to proceed, click Search. You will then be taken to the results screen
Narrowing your results

1. To filter your results to a specific type of item (example: books, e-books, journals, e-journals, etc.), click Format to show a list of formats available in your search results:

2. Click a format you are interested in (for example, e-book):
3. To choose additional formats to display, repeat steps 1 and 2 (example: e-Journal):

**Accessing e-Books and e-Journals**

When you find an e-book or e-journal in the catalogue that you want to view:

1. To go directly to the e-book, click on the **View e-Book** link (for e-journals, the link says View e-Journal)
2. If you’d like to see the complete catalogue record, click on the title or the blue arrow button before the title:
